Alfa Romeo DOHC Engine High-Performance Manual (SpeedPro Series) By Jim Kartalamakis

Ten years have passed since the original edition of this book was published, but Alfa Romeo enthusiasts everywhere are more active today than ever in preserving, modifying and racing these excellent cars. Throughout this time, the author in true Alfista fashion, never stopped looking for and trying new techniques to increase the power, overall performance and reliability of Alfas and their engines. This book is the result of much research, and also first-hand experience gained through many Alfa rear wheel drive model projects, from the 105 series to the last of the 75 models. There is a lot of completely new information regarding TwinSpark Cylinder head mods, big-brake mods, LSD adjustment procedure, electrical system improvements, plus many flow-bench diagrams, dyno plots, and much more.

Editorial Review

Review

New Zealand Classic Car, December 2006

“Anyone contemplating a rebuild of one of Alfa’s late model twin-cams would be well advised to check out this book before starting work.”

About the Author

Jim Kartalamakis was born in Salonica, Greece. He went to Toronto, Canada, to study electrical engineering, and at 23 bought his first Alfa, which was where it all started. Thirty years later, Jim still fondly remembers the life and times of the ARCC (Alfa Romeo Club of Canada). He returned to Greece in 1979, and ever since has had only one make of car, albeit different models – from a 1750 GT through to an Alfetta GTV, a 75 3.0 to, currently, another 75 3.0 and a 1.8 Turbo. For many years Jim was a technical writer for several car magazines, and the official Alfa Romeo technical manual translator in Greece.

Users Review

From reader reviews:

Michael Turner:

What do you with regards to book? It is not important along with you? Or just adding material when you require something to explain what the one you have problem? How about your spare time? Or are you busy person? If you don't have spare time to complete others business, it is gives you the sense of being bored faster. And you have free time? What did you do? All people has many questions above. They must answer that question because just their can do in which. It said that about book. Book is familiar on every person. Yes, it is proper. Because start from on guardería until university need that Alfa Romeo DOHC Engine High-Performance Manual (SpeedPro Series) to read.

Myron Mendez:

Reading a reserve can be one of a lot of action that everyone in the world really likes. Do you like reading book and so. There are a lot of reasons why people love it. First reading a guide will give you a lot of new information. When you read a book you will get new information because book is one of various ways to share the information or their idea. Second, examining a book will make a person more imaginative. When you reading through a book especially fictional book the author will bring you to definitely imagine the story how the people do it anything. Third, you can share your knowledge to other folks. When you read this Alfa Romeo DOHC Engine High-Performance Manual (SpeedPro Series), it is possible to tells your family, friends along with soon about yours e-book. Your knowledge can inspire different ones, make them reading a guide.

Katie Harper:

Reading a reserve tends to be new life style within this era globalization. With examining you can get a lot of information which will give you benefit in your life. Along with book everyone in this world can share their idea. Books can also inspire a lot of people. Many author can inspire their particular reader with their story or perhaps their experience. Not only the storyplot that share in the books. But also they write about the knowledge about something that you need example. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors nowadays always try to improve their expertise in writing, they also doing some analysis before they write with their book. One of them is this Alfa Romeo DOHC Engine High-Performance Manual (SpeedPro Series).

Kimberly Silvestre:

Playing with family in a park, coming to see the marine world or hanging out with pals is thing that usually you could have done when you have spare time, then why you don't try issue that really opposite from that. One activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love Alfa Romeo DOHC Engine High-Performance Manual (SpeedPro Series), you are able to enjoy both. It is very good combination right, you still would like to miss it? What kind of hangout type is it? Oh can occur its mind hangout people. What? Still don't understand it, oh come on its referred to as reading friends.
