Nightstalkers (Area 51: The Nightstalkers Book 1) By Bob Mayer

Staff Sergeant Winthrop Carter has just been drafted into the Nightstalkers—an elite group of soldiers that...

Actually, he's not quite sure what they do.

Born from the Area 51 initiative, the Nightstalkers defy sanity and decorum and include among their ranks Moms, a Black Ops trainee too extreme for Special Forces; Doc, a scientific crackpot; Roland, the weapons enthusiast; and Mac, a contemporary MacGyver. All of them take their orders from the elusive Ms. Jones, who everyone claims is just a hologram.

Those orders include tracking down and sealing tears in our reality that are releasing interdimensional beings known only as Fireflies—creatures that take control of both living and inanimate matter in order to unleash wanton destruction.

Just as Carter is settling in, a rogue scientist triggers a fresh invasion of Fireflies that swarm a swanky gated community. Now it's up to Carter and his new teammates to neutralize the threat while figuring out who's behind the breach.

Review

Bob Mayer's *Nightstalkers* grabs you by the rocket launcher and doesn't let go. Fast-moving military SF action--just the way I like it. Highly recommended. -B.V. Larson

Terry Brooks reference Atlantis books: "Spell-binding! Will keep you on the edge of your seat. Call it techno-thriller, call it science fiction, call it just terrific story-telling."

From the Author

The idea for this book came to me based on my time in Special Operations. We'd run into guys from other covert units and we'd chat and ask them if they were doing such and such, because we'd heard rumors, and they'd say, we thought you guys were doing that and then we wondered who the hell is doing it? All those black helicopters in the movies? We were in those, especially when Task Force 160, the actual Nightstalkers, were formed. Yes, we were above *your* house. Watching you.
