Editorial Review

Review

"...questions seem typical of those posed by students of all ages/levels/backgrounds and laypersons ... topics range from fairly simple to fairly complex ... a readable, entertaining work on various chemical concepts and subjects. Recommended. High school students, undergraduate students, and general readers."— *Choice*

"...like having asked your chemistry buddy to do [a] search and get back to you with the bottom line. This book would be a particularly useful starting point for teachers in upper elementary to high school settings, for high school and general studies university students, and perhaps for parents with inquisitive children."— *Journal of Chemical Education*

"... easy to scan ... for fascinating tidbits.. highly readable ... makes chemistry fun and appealing to a wide audience. The title will be of use to educators in primary and early high school, who will find it enormously useful in classroom discussions; parents looking to answer the myriad questions children ask; and high school student with a chemistry class requirement."— *Library Journal*

About the Author

Justin P. Lomont is a National Science Foundation Graduate Research Fellow whose doctoral research with the University of California–Berkeley focuses on organometallic reaction mechanisms using ultra-fast infrared spectroscopy. He lives in Berkeley, California. Ian C. Stewart is a senior research chemist at ExxonMobil. He formerly worked with Nobel Prize-winning chemist Robert H. Grubbs and is the recipient of several fellowships. He lives in Houston, Texas.

Users Review

From reader reviews:

Sam Holmes:

Spent a free the perfect time to be fun activity to perform! A lot of people spent their spare time with their family, or their friends. Usually they accomplishing activity like watching television, about to beach, or picnic inside park. They actually doing same task every week. Do you feel it?
