Folding Techniques for Designers: From Sheet to Form

By Paul Jackson

Folding Techniques for Designers: From Sheet to Form By Paul Jackson

Many designers use folding techniques in their work to make three-dimensional forms from two-dimensional sheets of fabric, cardboard, plastic, metal, and many other materials. This unique book explains the key techniques of folding, such as pleated surfaces, curved folding and crumpling. An elegant, practical handbook, it covers over 70 techniques explained by clear step-by-step drawings, crease-pattern drawings, and specially commissioned photography.

Editorial Review

About the Author
Paul Jackson has been a professional paper folder and paper artist since 1982 and is the author of 30 books on paper arts and crafts. He has taught the techniques of folding on more than 150 university-level design courses in the UK, Germany, Belgium, the US, Canada and Israel. These include courses in Architecture, Graphic Design, Fashion Design, Textile Design, Jewellery, Product Design, Packaging, Ceramics, Industrial Design, Fine Art, Basic Design and Interior Design. He has also taught many workshops in museums, arts centers, and festivals and has worked as 'folding consultant' for companies such as Nike and Siemens.

Users Review

From reader reviews:

Jason Villalobos:

Nowadays reading books be than want or need but also work as a life style. This reading habit give you lot of advantages. Associate programs you got of course the knowledge your information inside the book that will improve your knowledge and information. The information you get based on what kind of reserve you read, if you want get more knowledge just go with education and learning books but if you want truly feel happy read one using theme for entertaining like comic or novel. Typically the Folding Techniques for Designers: From Sheet to Form is kind of book which is giving the reader unpredictable experience.

Chad Foster:

Information is provisions for anyone to get better life, information today can get by anyone from everywhere. The information can be a expertise or any news even a concern. What people must be consider any time those information which is within the former life are challenging be find than now's taking seriously which one works to believe or which one the actual resource are convinced. If you get the unstable resource then you get it as your main information there will be huge disadvantage for you. All of those possibilities will not happen with you if you take Folding Techniques for Designers: From Sheet to Form as the daily resource information.

Miguel Penix:

Spent a free a chance to be fun activity to try and do! A lot of people spent their down time with their family, or their own friends. Usually they doing activity like watching television, planning to beach, or picnic from the park. They actually doing ditto every week. Do you feel it? Would you like to something different to fill your own free time/ holiday? Might be reading a book could be option to fill your totally free time/ holiday. The first thing that you will ask may be what kinds of reserve that you should read. If you want to test look for book, may be the guide untitled Folding Techniques for Designers: From Sheet to Form can be good book to read. May be it can be best activity to you.

Beverly Turner:

What is your hobby? Have you heard which question when you got scholars? We believe that that concern was given by teacher to their students. Many kinds of hobby, Everybody has different hobby. And also you know that little person like reading or as reading become their hobby. You must know that reading is very important as well as book as to be the point. Book is important thing to provide you knowledge, except your current teacher or lecturer. You find good news or update regarding something by book. Many kinds of books that can you choose to use be your object. One of them is Folding Techniques for Designers: From Sheet to Form.
