**Calculus (Briggs/Cochran Calculus)** By Bill Briggs, Lyle Cochran

Drawing on their decades of teaching experience, William Briggs and Lyle Cochran have created a calculus text that carries the teacher's voice beyond the classroom. That voice—evident in the narrative, the figures, and the questions interspersed in the narrative—is a master teacher leading readers to deeper levels of understanding. The authors appeal to readers' geometric intuition to introduce fundamental concepts and lay the foundation for the more rigorous development that follows. Comprehensive exercise sets have received praise for their creativity, quality, and scope.

### Editorial Review

#### From the Back Cover

Drawing on their decades of teaching experience, William Briggs and Lyle Cochran have created a calculus text that carries the teacher's voice beyond the classroom. That voice—evident in the narrative, the figures, and the questions interspersed in the narrative—is a master teacher leading readers to deeper levels of understanding. The authors appeal to readers' geometric intuition to introduce fundamental concepts and lay the foundation for the more rigorous development that follows. Comprehensive exercise sets have received praise for their creativity, quality, and scope.

Functions; Limits; Derivatives; Applications of the Derivative; Integration; Applications of Integration; Logarithmic and Exponential Functions; Integration Techniques; Sequences and Infinite Series; Power Series; Parametric and Polar Curves; Vectors and Vector-Valued Functions; Functions of Several Variables; Multiple Integration; Vector Calculus.

For all readers interested in single variable and multivariable calculus for mathematics, engineering, and science.

#### About the Author

**William Briggs** has been on the mathematics faculty at the University of Colorado at Denver for twenty-three years. He received his BA in mathematics from the University of Colorado and his MS and PhD in applied mathematics from Harvard University. He teaches undergraduate and graduate courses throughout the mathematics curriculum with a special interest in mathematical modeling and differential equations as it applies to problems in the biosciences. He has written a quantitative reasoning textbook, *Using and Understanding Mathematics*; an undergraduate problem solving book, *Ants, Bikes, and Clocks*; and two tutorial monographs, *The Multigrid Tutorial* and *The DFT: An Owner's Manual for the Discrete Fourier Transform*. He is the Society for Industrial and Applied Mathematics (SIAM) Vice President for Education, a University of Colorado President's Teaching Scholar, a recipient of the Outstanding Teacher Award of the Rocky Mountain Section of the Mathematical Association of America (MAA), and the recipient of a Fulbright Fellowship to Ireland.

**Lyle Cochran** is a professor of mathematics at Whitworth University in Spokane, Washington. He holds BS degrees in mathematics and mathematics education from Oregon State University and a MS and PhD in mathematics from Washington State University. He has taught a wide variety of undergraduate mathematics courses at Washington State University, Fresno Pacific University, and, since 1995, at Whitworth University. His expertise is in mathematical analysis, and he has a special interest in the integration of technology and mathematics education. He has written technology materials for leading calculus and linear algebra textbooks including the *Instructor's Mathematica Manual for Linear Algebra and Its Applications* by David C. Lay and the *Mathematica Technology Resource Manual for Thomas' Calculus*. He is a member of the MAA and a former chair of the Department of Mathematics and Computer Science at Whitworth University.

### Users Review

#### From reader reviews:

**Mamie Perkins:**

Have you spare time for any day? What do you do when you have far more or little spare time? Sure, you can choose the suitable activity intended for spend your time. Any person spent their spare time to take a wander, shopping, or went to typically the Mall. How about open or perhaps read a book entitled Calculus (Briggs/Cochran Calculus)? Maybe it is being best activity for you. You realize beside you can spend your time with your favorite's book, you can cleverer than before. Do you agree with it is opinion or you have additional opinion?

**Barbara Folsom:**

Do you have something that you prefer such as book? The reserve lovers usually prefer to decide on book like comic, short story and the biggest an example may be novel. Now, why not hoping Calculus (Briggs/Cochran Calculus) that give your enjoyment preference will be satisfied by means of reading this book. Reading routine all over the world can be said as the way for people to know world better then how they react when it comes to the world. It can't be mentioned constantly that reading routine only for the geeky person but for all of you who wants to become success person. So , for all you who want to start reading as your good habit, you could pick Calculus (Briggs/Cochran Calculus) become your own starter.

**Madeline Cecil:**

Your reading 6th sense will not betray you, why because this Calculus (Briggs/Cochran Calculus) e-book written by well-known writer whose to say well how to make book that may be understand by anyone who all read the book. Written in good manner for you, still dripping wet every ideas and composing skill only for eliminate your own personal hunger then you still uncertainty Calculus (Briggs/Cochran Calculus) as good book not simply by the cover but also from the content. This is one book that can break don't ascertain book by its include, so do you still needing an additional sixth sense to pick that!? Oh come on your examining sixth sense already alerted you so why you have to listening to yet another sixth sense.

**Jessica Harris:**

This Calculus (Briggs/Cochran Calculus) is completely new way for you who has attention to look for some information as it relief your hunger of knowledge. Getting deeper you onto it getting knowledge more you know or perhaps you who still having bit of digest in reading this Calculus (Briggs/Cochran Calculus) can be the light food to suit your needs because the information inside this specific book is easy to get by simply anyone. These books acquire itself in the form that is certainly reachable by anyone, sure I mean in the e-book contact form. People who think that in publication form make them feel tired even dizzy this book is the answer. So there isn't any in reading a book especially this one. You can find what you are looking for. It should be here for a person. So , don't miss it! Just read this e-book sort for your better life and knowledge.
