Environmental Law By Stuart Bell, Donald McGillivray

Environmental Law addresses a wide range of topics, introducing students to all of the key areas and latest developments of environmental law, drawing on legislation, policy, and practice.

The seventh edition features a new chapter on the law relating to air pollution and climate change, as well as more detailed coverage of environmental liability at national, EU, international, and transnational levels. Reference is made throughout to the influence of European and international organizations and legislation and offers enhanced introductory coverage of global dimensions. Topics are fully cross-referenced, allowing readers to follow key ideas through the book and to understand the interaction of law and the environment. The book is structured by theme and by sector and presented in a clear color design, guiding the student through the subject.

Online Resource Centre

An Online Resource Centre featuring updates to the law, latest developments, and web links, accompanies the book.
