## **Editorial Review**

From the Back Cover

Since 1935, **Lea's Chemistry of Cement and Concrete** has been the perfect reference for those engineers and researchers just entering the profession as those more experienced engineers and researchers who simply wish to stay abreast of the industry's best practices. Now updated for a new generation of researchers, designer and engineers, **Lea's Chemistry of Cement and Concrete, Fifth Edition**, includes the latest breakthroughs and concerns in the building, materials and construction fields. In this edition, the editor and contributors have paid extra attention to the suitability and durability of materials aggregates and additives. Outlining the condition under which concrete can excel and those situations where it may deteriorate and when precautionary or even remedial measures should be adopted.

Comprehensive in its scope and authoritative in its approach, **Lea's Chemistry of Cement and Concrete, Fifth Edition** begins with a practical discussion of the history of calcareous cements. This is followed by updated chapters representing the latest advances in the industry including but not exclusive to: The Production of Low-Energy Cements, Portland Cement: Classification and Manufacture, : Pozzolana and Pozzoianic Cements The Constitution and Specification of Portland Cements, Hydration, Setting and Hardening of Portland Cement, Cement Admixtures and Concrete Aggregates.

### **About the Author**

Peter C. Hewlett (Editor) is Director of the British Board of Agreement. He is President of the European Organization for Technical Approvals (EOTA) and Past President of the European Union of Agreement (UEAtc). Before joining the BBA in March 1988, he was a Director of Cementation Research Limited, part of the then Trafalgar House group, working in construction and building research and development for almost 25 years

## **Users Review**

### **From reader reviews:**

#### **Patsy Marshall:**

Make an effort to pick one book that you never know the inside because don't evaluate book by its deal with may doesn't work the following is difficult job because you are afraid that the inside maybe not while fantastic as in the outside look likes. Maybe you answer could be Lea's Chemistry of Cement and Concrete, Fifth Edition why because the fantastic cover that make you consider in regards to the content will not disappoint an individual. The inside or content will be fantastic as the outside or perhaps cover. Your reading sixth sense will directly assist you to pick up this book.

#### **Margarita Culbertson:**

Beside that Lea's Chemistry of Cement and Concrete, Fifth Edition in your phone, it could give you a way to

get closer to the new knowledge or details. The information and the knowledge you might get here is fresh from oven so don't be worry if you feel like an aged people live in narrow community. It is good thing to have Lea's Chemistry of Cement and Concrete, Fifth Edition because this book offers to you personally readable information. Do you sometimes have book but you seldom get what it's exactly about. Oh come on, that would not happen if you have this with your hand. The Enjoyable agreement here cannot be questionable, just like treasuring beautiful island. Use you still want to miss that? Find this book and also read it from now!

#### **Dawn Nelson:**

You can get this Lea's Chemistry of Cement and Concrete, Fifth Edition by look at the bookstore or Mall. Just viewing or reviewing it could possibly to be your solve challenge if you get difficulties for your knowledge. Kinds of this guide are various. Not only by simply written or printed but also can you enjoy this book simply by e-book. In the modern era like now, you just looking of your mobile phone and searching what your problem. Right now, choose your ways to get more information about your book. It is most important to arrange yourself to make your knowledge are still update. Let's try to choose correct ways for you.

#### **Richard Kowalski:**

As a scholar exactly feel bored for you to reading. If their teacher questioned them to go to the library as well as to make summary for some book, they are complained. Just small students that has reading's soul or real their leisure activity. They just do what the professor want, like asked to the library. They go to there but nothing reading significantly. Any students feel that reading through is not important, boring as well as can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this Lea's Chemistry of Cement and Concrete, Fifth Edition can make you sense more interested to read.
