## Mouth Madness: Oral Motor Activities for Children By Catherine Orr

This manual features games, rhymes, and manipulative tasks to help preschool and primary school children with hearing impairment, oral dyspraxia, and articulation problems. Children will learn feeding and verbal skills through oral imitation and motor planning. The games target higher organizational levels of motor planning for oral motor skills. These activities provide a natural focus on the mouth, an approach that can be shared with children who do not have disabilities. Games include saying silly sentences and rhymes and making funny faces.

### Key Features

- \* Illustrations, photographs, and detailed instructions provide precise information for applying oral motor activities
- \* Activities are appropriate for individual, small groups, or large group therapy
- \* High-interest, age-appropriate activities reinforce oral motor planning and breath control
