Editorial Review

Review

"Vivek shows that his generation, through the use of the Internet, will revolutionize how people think and view others simply by the fact that more and more people are being exposed to diverse backgrounds, unique educational experiences, and other religions. One can argue that if there is a generation to help move mankind forward to truly believe that there is one race, the human race, Generation Z has the best chance of doing so. And [in We Are Generation Z] Vivek does a nice job of showing how it might accomplish this lofty goal." --Bryan Mark Rigg, PhD
