Developing Secure Distributed Systems with CORBA By Ulrich Lang, Rudolf Schreiner

This text is a clearly-written guide to building secure distributed applications with CORBA. It helps securing CORBA applications, integrating security infrastructure with CORBA applications, and evaluating the security effectiveness of distributed applications. The book provides a comprehensive study of the CORBA security architecture, allowing for a better understanding of its goals and limitations. It is designed to serve as a complete reference for understanding security in distributed systems.
