Editorial Review

From Library Journal

Now here is something special. Widely recognized as one of the greatest collections of short fiction ever produced, *Dubliners* here gets the red carpet treatment it deserves. Lavishly decorated with more than 300 illustrations of people, places, and things referred to in the text, this oversized volume contains scholarly annotations for each of the 15 stories plus a general introduction to the collection as a whole. Though many less expensive editions are readily available, this illuminated *Dubliners* offers something for the serious Joycean student and the casual reader alike. A *Dubliners* to be cherished, it is well worth having if your library's budget can handle it.
