## **Editorial Review**

### **About the Author**

#### **Michel Anders**

Michel Anders, after his chemistry and physics studies where he spent more time on computer simulations than on real world experiments, the author found his real interests lay with IT and Internet technology, and worked as an IT manager for several different companies, including an Internet provider, a hospital, and a software development company.

After his initial exposure to Python as the built-in scripting language of Blender, the popular 3D modeling and rendering suite, the language became his tool of choice for many projects.

He lives happily in a small converted farm, with his partner, three cats, and twelve goats. This tranquil environment proved to be ideally suited to writing his first book, *Blender 2.49 Scripting* (Packt Publishing, 978-1-849510-40-0).
