## **International Accounting** By Timothy Douppnik, Hector Perera

International Accounting can be viewed in terms of accounting issues uniquely confronted by companies involved in international business. It also can be viewed more broadly as the study of how accounting is practiced in each and every country around the world, learning about and comparing the differences in various accounting methods. International Accounting, 2e is unique in its content and is up-to-date with relevant material integrated throughout the textbook. In its first year, this text captured approximately 30% of the market.
