From Atlantis Press

Industrial engineering is a branch of engineering dealing with the optimization of complex processes or systems. It is concerned with the development, improvement, implementation and evaluation of production and service systems. Computational Intelligence Systems find a wide application area in industrial engineering: neural networks in forecasting, fuzzy sets in capital budgeting, ant colony optimization in scheduling, Simulated Annealing in optimization, etc. This book will include most of the application areas of industrial engineering through these computational intelligence systems. In the literature, there is no book including many real and practical applications of Computational Intelligence Systems from the point of view of Industrial Engineering. Every chapter will include explanatory and didactic applications. It is aimed that the book will be a main source for MSc and PhD students.

### **Editorial Review**

### **Users Review**

#### **From reader reviews:**

##### **Jason Urso:**

Do you have favorite book? In case you have, what is your favorite's book? Reserve is very important thing for us to be aware of everything in the world. Each publication has different aim or maybe goal; it means that reserve has different type. Some people experience enjoy to spend their time and energy to read a book. They can be reading whatever they take because their hobby is actually reading a book. What about the person who don't like reading through a book? Sometime, man feel need book once they found difficult problem or maybe exercise. Well, probably you should have this Computational Intelligence Systems in Industrial Engineering: With Recent Theory and Applications (Atlantis Computational Intelligence Systems).

##### **Reginald Hunter:**

The event that you get from Computational Intelligence Systems in Industrial Engineering: With Recent Theory and Applications (Atlantis Computational Intelligence Systems) is a more deep you digging the information that hide into the words the more you get enthusiastic about reading it. It doesn't mean that this book is hard to comprehend but Computational Intelligence Systems in Industrial Engineering: With Recent Theory and Applications (Atlantis Computational Intelligence Systems) giving you buzz feeling of reading. The writer conveys their point in selected way that can be understood by anyone who read it because the author of this book is well-known enough. This specific book also makes your own personal vocabulary increase well. That makes it easy to understand then can go along with you, both in printed or e-book style are available. We advise you for having that Computational Intelligence Systems in Industrial Engineering: With Recent Theory and Applications (Atlantis Computational Intelligence Systems) instantly.

##### **Dwight Bailey:**

The book untitled Computational Intelligence Systems in Industrial Engineering: With Recent Theory and Applications (Atlantis Computational Intelligence Systems) is the e-book that recommended to you you just read. You can see the quality of the book content that will be shown to a person. The language that publisher use to explained their ideas are easily to understand. The writer was did a lot of investigation when write the book, so the information that they share to you is absolutely accurate. You also could get the e-book of Computational Intelligence Systems in Industrial Engineering: With Recent Theory and Applications (Atlantis Computational Intelligence Systems) from the publisher to make you much more enjoy free time.

**Kevin Blais:**

Are you kind of hectic person, only have 10 or even 15 minute in your day to upgrading your mind skill or thinking skill possibly analytical thinking? Then you are having problem with the book in comparison with can satisfy your limited time to read it because all this time you only find publication that need more time to be go through. Computational Intelligence Systems in Industrial Engineering: With Recent Theory and Applications (Atlantis Computational Intelligence Systems) can be your answer as it can be read by a person who have those short free time problems.
